PROFILE

Senior Full Stack Developer with strong experience in building modern web and mobile applications. Specialized in React, Node.js, MERN Stack, and Flutter, with hands-on experience working with startups, freelance clients, and remote teams. Skilled in delivering full-cycle projects from idea and design to deployment and maintenance. Passionate about clean code, scalable systems, and user-focused solutions.

EXPERIENCE

Senior Full Stack Developer
Startup & Freelance Projects (Remote)
PRESENT

- Developed full-stack web applications using React, Node.js, Express, and MongoDB.
- Built cross-platform mobile applications using Flutter for Android and iOS.
- Worked closely with startup founders to define requirements, plan features, and deliver MVPs.
- Implemented authentication, REST APIs, database architecture, and third-party integrations.
- Optimized performance, improved UI/UX, and fixed production issues.
- Managed multiple projects simultaneously while meeting deadlines in remote environments.

EDUCATION

CECOS University of Information Technology and Emerging Sciences Bachelor of Software Engineering 2023 – 2027 (Ongoing)

Currently pursuing a Bachelor's degree in Software Engineering with a strong focus on software development, data structures, and modern web and mobile technologies. Actively applying academic knowledge to real-world projects, including full-stack web applications and cross-platform mobile development.
